

Opto-Isolated Relay Control Board

Opto-isolated relay board for smart switching in automation and control applications.

SPECIFICATIONS

Isolation	Opto-isolated control input
Function	Logic-level control of mains switching
Form	Board level

FEATURES · 03

- Galvanic isolation between logic and load
- Logic-level trigger input
- Status indication per channel

OPTIONS · 02

- Multi-channel configurations
- DIN-rail carrier

APPLICATIONS · 03

- Home and building automation
- Equipment control integration
- Test and laboratory switching
